*The availability of tax benefits may be conditioned on meeting certain requirements, such as residency, purpose for or timing of distributions, or other factors as applicable. Tax-free 529 distributions used to cover K-12 tuition expenses are limited to \$10,000 per beneficiary, per calendar year. While distributions from 529 college savings plans for elementary or secondary education tuition expenses are federally tax-free, state tax treatment will vary and could include state income taxes assessed, the recapture of previously deducted amounts from state taxes, and/or state-level penalties. You should consult with a tax or legal advisor for additional information. The earnings, if any, of a nonqualified distribution may be subject to income taxes and a 10% penalty.

**The Plan offers 13 additional portfolios; be sure to review all portfolios offered before making an investment selection.
